

SILO ACCESSORIES

Cement Silo Equipments

RK International provides cement silo accessories such as maximum -minimum level indicators, cement silo filter, pressure safety valve and fluidizing system to its customers together with the cement also.

Cement Silo Level Indicators

Cement Silo Filter

Pressure Safety Valve

Cement Silo Fluidizing System

Worm Geared Motors

Dust Collector-wam

Loading Bellows-wam

Butterfly Valves - Wam

Electropneumatic Actuator Wam

Pressure Relief Valve-Wam

Hopper Venting-Wam

Open Truck Loading Bellows-wam

Bin Activators Wam

Tubular Screw Conveyors-wam

Vibrating Aerators Wam

Cement Silo Feeding System

INTRODUCTION

RK International An ISO 9001:2008 Certified Is Pleased To Inform You That We Are Playing An Active Part In Catering To The Needs And Requirements In The Field Of Construction. The Company Is An Integrated Organization That Is Giving Multi Facilities Under One Roof I.e. Manufacturers, Traders, Exporters/importers & Service Providers In Wide Range Of Applications In The Field Of Engineering Products & Activities.

RK International Has Been Manufacturing Bolted Type Silos In Various Capacities In It. RK International Which Is Especially Established For Cement Silo Manufacturing. Bolted Type Cement Silos Are Manufactured In Various Capacities Which Are 50 Tons, 75 Tons, 100 Tons, 150 Tons, 300 Tons And 500 Tons. RK International Bolted Type Cement Silos Provide Many Advantages Especially In Transportation. For Instance, 2 Units 100 Tons Bolted Type

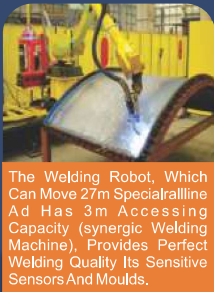

Cement Silo Can Be Transported By Only 1 Unit 40' Open Top (OT) Container. Silo Cement/flyash And Accessories, Cement Feeding Pumps, Concrete Pump/ Batching Plant Spare Parts, Concrete Pipeline, Dust Collector, Transit Mixer Accessories And All Type Of Fabrication As Per Customer Requirement.

The Parts Of The Cement Silos Are Manufactured In High Quality By Means Of Special Moulds, Apparatus System And The Welding Robot Which Has Sensitive Detectors. All Parts Of Cement Silos Are Being Paint 2 Coats Red Oxide, 2 Coats Enamel Paint Coat Paint In Special Paint Booths Which Have Advanced Technology. Unimate Engineering Works Bolted Type Cement Silos Are Being Packaged Specially For Shipment.

**RK
INTERNATIONAL**

CEMENT/ FLYASH SILOS/ BOLTED/ WELDED TYPE

The Welding Robot, Which Can Move 27m Special rail line And Has 3m Accessing Capacity (synergic Welding Machine), Provides Perfect Welding Quality Its Sensitive Sensors And Moulds.

RK International Works Bolted Type Silo Parts Are Painted In Special Paint Booths, Which Have Advanced Technology, By Means Of Trolleys.

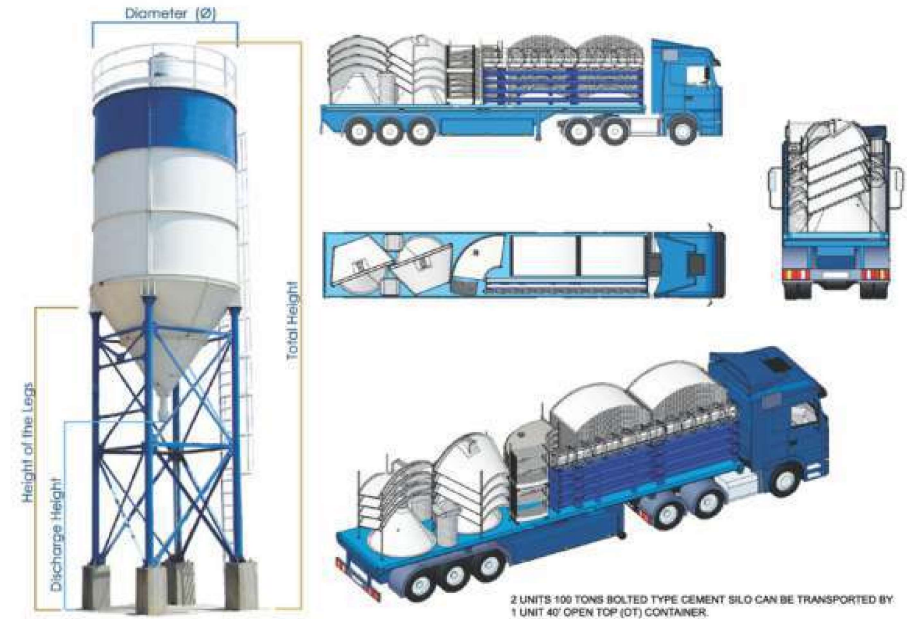

RK International Works Bolted Type Cement Silos Are Packaged Specially For Shipment.
